Corporate Overview

Milano & Grunloh Engineers, LLC, a locally owned an operated consulting company, has provided complete civil engineering, construction, and surveying services to Effingham County and the surrounding areas since 1979. The Company has 20+ full time employees consisting of engineers, surveyors, technicians, computer operators and clerical assistants with over 80 years of combined municipal experience.

Milano & Grunloh Engineers, LLC provides Illinois Professional Engineering and Land Surveying services, as well as complete Civil, Municipal, Transportation, and Environmental Engineering services utilizing state of the art computer programs and GPS.

Milano & Grunloh Engineers, LLC also provides Funding & Grant Administration Assistance and has extensive experience working with multiple Federal and State Agencies. As of today, Milano & Grunloh Engineers, LLC has helped our clients successfully secure over $48.2 million in DCEO grant funds alone.

Our greatest asset is our ability to work closely with our clients throughout the project and to develop long term relationships with those clients. We take pride in being a local company employing local people while working together with our clients as a team.

Project Management Team

Lee R. Beckman, P.E., P.L.S.
Owner / Project Manager

Lee, a licensed Professional Engineer and Professional Land Surveyor, began his career with Milano & Grunloh Engineers, LLC in 1999, and became a partner in 2002. He is a graduate from the University of Illinois with a Bachelor of Science Degree in Civil Engineering. He is a member and past President of the Ambraw Chapter of the ISPE, and a member of the National Trail Chapter of the IPLSA. Lee has extensive experience in sewer system design, water system design, municipal engineering and project administration.

Douglas C. Grunloh, P.L.S.
Owner / Project Manager

Doug, a Professional Land Surveyor, began his career with Milano & Grunloh Engineers, LLC in 1992 and became a partner in 2014. He is a graduate from the Southern Illinois University at Carbondale with a Bachelor of Science Degree in Industrial Technology. He is a member and past President of the National Trail Chapter of the IPLSA and a member of the NSPE. Doug is a proficient CAD operator and has extensive experience in boundary surveys, construction staking, material testing, topographic surveys and ALTA surveys. He handles the day-to-day operation of the field survey crew, as well as, construction staking and material testing.

Nicholas E. Burrus, P.E.
Project Manager / Project Engineer

Nick, a licensed Professional Engineer, began his career with Milano & Grunloh Engineers, LLC in 2014. He is a graduate from the Southern Illinois University at Carbondale with a Bachelor of Science Degree in Civil Engineering. Nick specializes in site design, drainage, road and streetscape design, ADA and PROWAG guidelines, and water and sewer infrastructure.

Charles R. McGhee, P.E.
Project Manager / Project Engineer

Chuck, a licensed Professional Engineer began his career with Milano & Grunloh Engineers, LLC in 2018. He is a graduate from the Southern Illinois University at Carbondale with a Bachelor of Science Degree in Civil Engineering. Chuck has 10+ years experience as a Professional Engineer and is proficient in site design and municipal engineering.

Michael A. Tappendorf, P.E.
Project Manager / Project Engineer

Michael, a licensed Professional Engineer, began his career with Milano & Grunloh Engineers, LLC in 2012. He is a graduate from the Southern Illinois University at Edwardsville with a Bachelor of Science Degree in Civil Engineering. Michael is proficient in site design, drainage calculations, stormwater pollution prevention planning, water and sewer permitting, as well as, street and sidewalk design and regulations set forth by the American Disabilities Act and Public Right-of-Way Accessibility Guidelines.

Services Offered

Surveying & Mapping Services

- Aerial Photography Control Surveys
- Boundary/ALTA Surveys
- Land Surveying
- Right-of-Way Location & Staking
- Site Development Feasibility Studies
- Site Planning & Design
- Subdivision Planning & Design
- Surface Water Studies
- Topography/DTM Survey
- Global Positioning Surveying

Construction Engineering Services

- Concrete Cylinder Testing
- Construction Inspection
- Construction Management
- Construction Surveying
- Quality Control/Quality Assurance
- Quantity and Cost Estimating
- Record Drawing and Final Construction Certifications
- Soil Moisture & Density Testing (Nuclear)
- Standard & Modified Proctor Laboratory Determination

Drinking Water Resource Services

- Certified Operator
- Distribution System Analysis & Design
- Elevated Water Storage Facility
- Rate Studies
- Storm Drainage Design
- Water Distribution System Analysis & Design
- Water Supply and Treatment Facilities Design
- Water System Master Planning
- Wellhead Protection Assistance

Wastewater Treatment Services

- Chlorine Exemption
- Facility Planning
- Infiltration/Inflow Studies
- Master Planning
- NPDES Permit Assistance
- Pre-Treatment Inspection
- Rate Studies
- Sewer Rehabilitation Studies
- Sludge Disposal Permit Preparation
- Wastewater Collection & Planning
- Wastewater Plant Capacity Studies
- Wastewater Treatment System Design

Transportation Services

- Location Studies
- Railroad Engineering
- Route Surveying
- Stormwater Drainage Design
- Streetscape Design
- Streets and Road Design
- Traffic Signal Design
- Traffic Signal Warrant Studies
- Transportation Impact Studies
- Utility Engineering

Funding & Grant Administration Services

- Department of Commerce & Economic Opportunity (DCEO)
- Department of Natural Resources (DNR) Grants
- Economic Development Administration (EDA)
- Financial Application Preparation
- Grant Application Preparation
- IDOT Grant Administration
- Planning Grants
- State Revolving Loan Fund
- U.S. Department of Agriculture (USDA) Rural Development

Statement of Qualifications

- Over 80 Years of Municipal Experience
- 20+ Personnel Technical Staff
- Centrally Located in Effingham, Illinois
- Licensed Professional Management
    - Lee R. Beckman, P.E., P.L.S
    - Douglas C. Grunloh, P.L.S.
    - Nicholas E. Burrus, P.E.
    - Charles R. McGhee, P.E.
    - Michael A. Tappendorf, P.E.
- Complete Computer Automation
    - AutoCAD, Civil 3D Design, Word, Excel, EPANet
    - Provide the Client with Output in Digital Format
- Experience working with multiple Federal & State Agencies
- Successfully secured over $48.2 million in DCEO Grant Funds

Milano & Grunloh Engineers, LLC

engineering | surveying

IDOT Certifications

- Portland Cement Concrete Level I
- Portland Cement Concrete Level II
- Mixture Aggregate Technician
- Standard Earth Density Course
- Hot Mix Asphalt Level I
- Hot Mix Asphalt Level II
- Documentation of Contract Quantities
- ICORS Training
- S33 Field Testing and Inspection Course
- Fundamentals of Storm Water Pollution and Erosion and Sediment Control
- OSHA 10-Hr. General Industry Training Course
- OSHA 30-Hr. General Industry Training Course
- IDOT Certified In-House Testing Lab

Project Portfolio

Milano & Grunloh Engineers, LLC

engineering | surveying

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Strasburg
Watermain Replacement

The Village of Strasburg received a $450,000 DCEO Design/Construction Grant in 2015 to replace dilapidated watermain in the Northern half of the Village. They coupled this with approximately $386,000 in USDA Rural Development funds and paid off approximately $171,000 in existing debt.

Milano & Grunloh Engineers, LLC helped secure the funding, completed design, and provided construction inspection for the project. The project was constructed in 2016 at a total project cost of approximately $830,000 including debt refinancing.

In 2018, the Village of Strasburg secured funding to replace the watermain in the Southern half of the Village. USDA Rural Development and DCEO were the funding sources. The project was constructed in 2018 and 2019 at a total cost of $1,480,000 with $900,000 in grant funding and $171,000 debt refinancing.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Metcalf
Municipal Water System Improvements

The Village of Metcalf was awarded a $450,000 DCEO CDBG Public Infrastructure Grant in 2016 to design and construct approximately 18,650 lineal feet of watermain, hydrants, service lines, and meters to alleviate the health and safety threat to the homes and persons within the Village caused by the deterioration of the existing cast iron watermains. The Village leveraged the Grant monies with $150,000 in USDA Rural Development funds.

Milano & Grunloh Engineers, LLC provided assistance with the Grant Application and Administration, Design Engineering, and Construction Inspection for this project. The water system improvements were constructed in 2017 at a total project cost of $600,000 with clean-up completed in 2018.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Edgewood
Municipal Water System Improvements

The Village of Edgewood's aging water system was experiencing low water pressure, infiltration of bacteria, and multiple watermain breaks creating a health and safety threat to the residents of the Village. With the assistance of Milano & Grunloh Engineers, LLC, the Village was able to secure a $450,000 DCEO CDBG Public Infrastructure Grant in 2016 and $150,000 in USDA Rural Development funds for leverage.

The monies were used to construct approximately 12,100 lineal feet of watermain, hydrants, service lines, meters, and all related cost to alleviate the health and safety threat to the homes and persons within the Northern Section of the Village. Milano & Grunloh Engineers, LLC provided assistance with the Grant Application and Administration, Design Engineering, and Construction Inspection for this project which was completed in 2017 at a total project cost of $600,000.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Stewardson
Water System Improvements

In 2012, the Village of Stewardson successfully applied for a $350,000 DCEO Public Infrastructure Grant. The Grant monies along with bank loan funds of $350,000 as leverage, allowed the Village to replace 26,000 lineal feet of seriously deteriorated and undersized ductile iron watermain. The replacement of the watermain succeeded in alleviating the health risk to 194 households and 453 person living in the West half of the Village.

The project was completed in 2013 at a total project cost of $700,000. Milano & Grunloh Engineers, LLC provided funding application and administration, design engineering, and construction inspection.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of St. Peter
Lift Station and Sewer Improvements

The Village of St. Peter was experiencing large of amounts of infiltration, sewer backups, and a failing lift station that needed replaced. The Village secured a $44,500 design grant, $182,000 in USDA Rural Development funding, and a $350,000 DCEO construction grant. The project replaced the failing lift station and 2,500 lineal feet of sewer main.

Milano & Grunloh Engineers, LLC helped secure the funding, completed design, and provide construction inspection. The project was completed in 2013.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Strasburg
Sanitary Sewer Replacement

In the Spring of 2013, the Village of Strasburg experienced flooding as a result of the excessive rainfall due to Hurricane Sandy, causing major damage to the Village's Sanitary Sewer System. The Village applied for and received a $600,000 DCEO CDBG Disaster Recovery Grant in 2016 for the design and construction of sewer main replacement, manhole repairs and all related costs to address damage to the sewer system caused by the flooding.

Milano & Grunloh Engineers, LLC provided assistance with the Grant Application and Administration of Grant Funding, Design Engineering, and Construction Inspection for this project. The project was completed in 2017.

Milano & Grunloh Engineers, LLC

engineering | surveying

Town of Sigel
Lagoon Renovation

The Town of Sigel was experiencing large amounts of infiltration, resulting in large amounts of sewage flow which the deteriorated collection systems and lift station could no longer handle. The total system deterioration has resulted equipment failures and raw untreated sewage backup into homes and ditches within the Village.

The Town utilized a $450,000 DCEO CDAP Public Infrastructure Grant it received in 2015 along with $150,000 in local funds to make improvements to the lift station, lagoon, and collection system. The improvements benefited 144 households and 380 residents within the Town.

The project was completed in 2016 at a total project cost of $600,000, Milano & Grunloh Engineers, LLC provided assistance with the Grant Application and Administration, Design Engineering, and Construction Inspection.

Milano & Grunloh Engineers, LLC

engineering | surveying

City of Arcola
Sanitary Sewer Improvements

In 2014, when the residents of the City of Arcola began experiencing raw untreated sewer backing up into their homes and ditches, the City applied for and was awarded a $450,000 DCEO CDAP Public Infrastructure Grant. The City also leveraged $187,020 of its own funds in order to repair and replace sanitary sewer lines, including appurtenances, in the North Central portion of the City to stop the infiltration.

Milano & Grunloh Engineers, LLC assisted the City of Arcola in applying for and the administration of Grant Funds, as well as, providing Design Engineering, and Construction Inspection for the project. The repair and replacement of the sanitary sewer lines was completed in 2016 at a total project cost of $637,020.

Milano & Grunloh Engineers, LLC

engineering | surveying

Village of Ramsey
Lift Station and Lagoon Rehabilitation

The Village of Ramsey began experiencing raw untreated sewage backups due to the aging of their sewage treatment systems. In 2016 the Village was awarded a $450,000 DCEO CDBG Public Infrastructure Grant, which they leveraged with $154,000 of local funds for the replacement of the lift stations, improvements to the sewer treatment lagoon, and replacing dilapidated sanitary sewer lines.

The project which benefited 426 households and 993 residents was constructed in 2017 at a total project cost of $604,000 with clean-up completed in early 2018. Milano & Grunloh Engineers, LLC helped secure the funding, completed design engineering, and will provide construction inspection for the project.

Milano & Grunloh Engineers, LLC

engineering | surveying

City of Sullivan
Sanitary Sewer Improvements

The City of Sullivan was experiencing large amounts of infiltration resulting in raw untreated sewer backing up into homes and other areas within the City. It was determined that the Sewer and Collection System installed in the 1930's had outlived its useful life and failed, resulting in infiltration from cracked or collapsed sewer pipes.

The City utilized a $450,000 DCEO CDBG Public Infrastructure Grant it received in 2016 with $342,270 in leverage funds committed by the City to repair and replace approximately 11,000 lineal feet of sanitary sewer mains, manholes, and service line to alleviate the immediate health and safety threat to 159 households and 379 residents within the City.

The project was constructed in 2017 at a total project cost of $792,270 with clean-up completed in the Spring of 2018. Milano & Grunloh Engineers, LLC is providing assistance with the Grant Application and Administration, Design Engineering, and Construction Inspection for this project.

DCEO Grant Award List
