### Employment:

1999-Present: Milano & Grunloh Engineers, LLC

Lee R. Beckman, P.E., P.L.S., has been a consulting Civil Engineer since 1999, and a Professional Land Surveyor since 2004. Lee has extensive experience in the operation of a Civil Engineering firm and in all aspects of project development, design and construction.

### Heartland Dental Home Office Addition

Heartland Dental expanded their Home Office Building, located on the North side of the City of Effingham, with a 16,986 SF addition to the West side of their existing building and additional parking area. Milano & Grunloh Engineers furnished the topographic and boundary survey, along with the site plan, detention calculation, on-site construction staking, and material testing.

### Patterson Technology Center

The new Patterson Technology Center is located in the Network Centre Business and Technology Park in Effingham, Illinois. Milano & Grunloh performed the ALTA Survey and topographic survey for the development site. The plans included furnishing surveys on electronic media for design, preparation plans for infrastructure improvements, furnishing construction staking, construction inspection and material testing.
